

# EVERS WATER WONDER®

## Mobile unit for drinking water treatment

### An innovation that helps

#### EVERS WATER WONDER®:

For use in foreign aid, emergency situations and disaster relief as well as for private use.

Improvement and distribution of water in areas with hygienically suspect water.

Especially developed as an emergency supply of drinking water to people in crises regions.

### Advantages

- ▼ Filtration by means of sintered active carbon and capillary membrane (0,15 µm)
- ▼ Capacity: 3-4 l/minute
- ▼ Robust, reusable system
- ▼ EVERS WATER WONDER® operates without electricity by means of a hand pump
- ▼ High contaminant reduction e.g of bacteria > 99,999999 %
- ▼ No chemicals required
